more than a hook !

**M** **CERLIANI**  
ITALY - Shuttles - Hooks & Bobbin Cases

2015 — 2016

From the library of: Superior Sewing Machine & Supply LLC

# Item list

## Reader's guidance

### Type of CM Article (see previous page)

- KK** = Hook to use with bobbin case/cap complete with bobbin case/cap
- KH** = Hook to use with bobbin case/cap
- KL** = Complete capless hook (hook with drop-in bobbin case)
- KP** = Bobbin case/Cap

### Type of gib (only for the rotary hooks):

- Short gib (A TYPE):** for sewing heavy materials.
- Full gib (B TYPE):** for general sewing from light to heavy materials.
- Shorten full gib (B TYPE):** It is a little bit shorter than the full gib.
- Tacking gib (C TYPE):** for sewing medium and light materials.
- Jam proof gib (D TYPE):** this gib is fitted to our jam proof range of hooks (our exclusive patent for a long time). It is connected to the hook body by three screws and three coil springs. If the sewing thread gets caught in the raceway the special mechanism allows the thread to get out without having to remove or dismantle the hook.

### Diameter of hole/shaft of the CM Article (HOOK only), measured in mm

### Type of bobbin braking system (For Bobbin Case/Cap only):

- MF** = Bobbin Case with adjustable no backlash spring.
- NBL** = Bobbin Case with no-backlash spring.
- Magnet** = Bobbin Case with magnet to brake the bobbin.
- - = Bobbin Case without any NBL/braking system of the bobbin.

### Relation between hook point and needle passing window:

- FA** = The hook point is at the same level as the bottom of the needle passing window. FA is suited for needles with thickness 70 through 100 (metric, corresponding to American Singer sizes 10 through 16) and is used for all generic stitching on normal fabrics.
- FB** = The hook point is higher than the bottom of the needle passing window. FB is suited for needles with a very deep groove, such as Singer MR, Schmetz SERV 7 or Groz-Beckert SAN as well also for needles with thickness 120 through 160 (metric, corresponding to American Singer sizes 19 through 23).

**Original number of the sewing machines Manufacturer** (according to the numerical order)

### CM ARTICLE NUMBER

#### Type of CM Article

(see "Product line description" page)

**KK** = Hook to use with bobbin case/cap complete with bobbin case/cap

**KH** = Hook to use with bobbin case/cap

**KL** = Complete capless hook (hook with drop-in bobbin case)

**KP** = Bobbin case/Cap

#### Type of bobbin braking system (Bobbin Case/Cap only) is:

**MF** = Bobbin Case with adjustable no backlash spring.

**NBL** = Bobbin Case with no-backlash spring.

**Magnet** = Bobbin Case with magnet to brake the bobbin.

-- = Bobbin Case without any NBL/braking system of the bobbin.
